

SHARKPRO FAST PATH

Value Ahead of Payments

You can't wait to innovate. SharkPro Fast Path makes it affordable to put technology to work immediately for a stronger competitive edge.

FORGET NET 30

We can accommodate payment terms far beyond the typical Net 30 offered by most vendors. Our business and government customers can spread payments across multiple years and begin payments only after they are receiving value from our solutions.

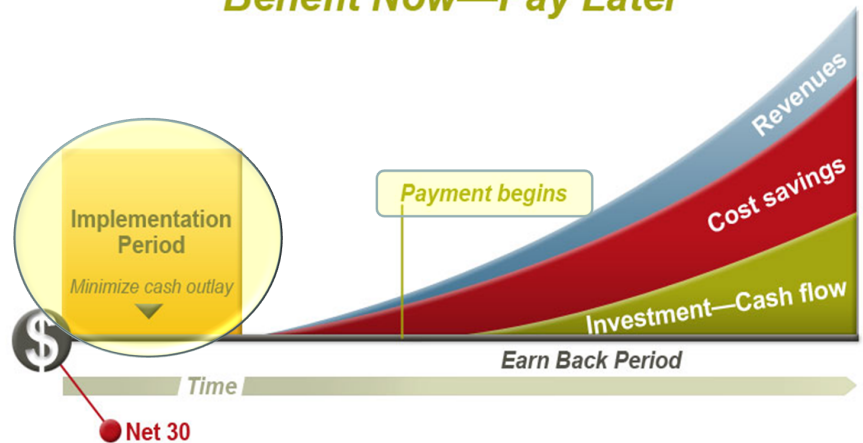

DO BUSINESS BETTER

With SharkPro Fast Path, customers can purchase the entire required solution—not just what they can afford to pay for today. Companies and government agencies can distribute, over time, the costs of purchasing and implementing business software, software licenses, professional services, hosting services, and maintenance fees.

PRESERVE CASH

SharkPro Fast Path enables companies to move forward immediately with critical business initiatives while preserving working capital and spreading payments over a number of years.

Benefit Now—Pay Later

Forget Net 30. Payments begin after value is realized.
