

Grow your SharePoint and Project Server Practice with SharkPro Projects™

SharkPro Software is seeking partners who are focused on lowering the time, cost and risk of project & portfolio management. Our partners are able to sell effectively to mid-sized businesses, new PMOs, and departments in larger enterprises by offering SharkPro Projects™ along with their consulting and training services.

SharkPro Projects is a preconfigured implementation of Microsoft Project Server 2010 and Project Server 2010 that can be deployed in hours on premise or hosted in minutes. SharkPro Projects improves management visibility and team collaboration with an easy-to-use web interface, built-in roles, project requests, workflow, collaboration workspaces, dashboards, timesheets, task timer, 50 reports and social media. With SharkPro Projects your customers are immediately successful and can grow with Microsoft Project Server and your services.

SharkPro Projects for Health Organizations

is an enterprise-wide work request framework integrated with a proven project and portfolio management solution powered by Microsoft SharePoint and Project Server 2010. As a SharkPro Partner, you can offer this vertical

PPM solution to help hospital IT departments capture ideas and requests, align resources and investments with business priorities, gain control across all types of work, and report performance.
